

STAR FLEET ALERT

10 FEBRUARY 2009

WE MOVED TO OUR OWN NEW BUILDING!

Our New Home!

After ten years renting an office-warehouse suite on 45th Avenue in Amarillo, we bought our own building on 10th Avenue. (The proper address is: ADB, Inc., 1504 SW 10th, Amarillo TX 79101, just in case anybody needs it.) Our new home has SIX TIMES as much office space as the old one, meaning that everything should work better. Things we used to do in the warehouse (assembling games, packing orders) are now done in two huge rooms (with heating and air conditioning). We now have a proper conference room, private offices, enough space for all of our production equipment (some of which was in storage as there was no place to put it), and even a break room! Drop by and see us sometime!

About the Schedule

Moving takes time. (It also took lots and lots of money; just buying the building is only the start of the checks we had to write: new wiring, burglar alarm, truck rental, moving company, new floors, the list is nearly endless.) We were shut down for over two weeks as we packed up everything in the old place, barely got it out of there before the lease ran out, and dumped it into the new office. Then (when we were supposedly up and running) we had to FIND where the boxes with this or that went. The schedule took a hit. *SFB Module G3 (5423)*, the *Orion Dreadnought (0826)*, and *Border Box #8 (4408)* were delayed from 26 Jan to sometime next week. *Prime Directive Federation (8702)* will appear in another three weeks. *Federation Commander Briefing #2 (4022)* will be pushed back into early March.

Watch for an alert with a firm schedule just as soon as we find everything!
