## **STAR FLEET UNIVERSE INDEX**

(As published in CL16 and updated to CL25 by Ryan J. Opel.)

This index is designed to assist players in locating obscure references to SFU history. It can also be used by fiction and scenario authors in preparing new material. It is compiled from all SFU fiction, scenarios, and other historical material. Ship names are published online [http://www.starfleetgames.com/documents/Starship\\_Name\\_Registry.pdf](http://www.starfleetgames.com/documents/Starship_Name_Registry.pdf). Ships mentioned in fiction are given here.

This is a **WORKING** draft and contains a number of unchecked data points and formatting differences that continue to be worked on.

Abbreviations used:

FNU=First Name Unknown

LNU=Last Name Unknown

These have been used in the rare case where the need to distinguish a character whose name was not complete in the historical record is required. Hopefully with further and continued research into the matter we will be able to determine the individuals' real name.

I would like to thank Stephen V. Cole & Steven P. Petrick for all the work they've done to keep this Universe going. Any errors in the index are strictly my own.
